

David is a Director within the Engineering Department at Alithya and provides technical leadership, quality assurance oversight, and supports business development with a focus on Small Modular Reactors (SMRs). Prior to joining Alithya David worked at GE Hitachi (now BWXT) for 21 years where he was Director of the Fuel Handling and Engineering solutions business in Peterborough. He started his career at the Darlington Nuclear Generating station in 1991 and worked as a Fuel Handling Engineer and Emergency Response Team Captain until leaving Ontario Hydro to work for General Electric in 1998.
