

As a Nuclear Professional with 30 years experience, I offer a solid understanding of the CANDU industry, its people, companies, and equipment. I have a high regard for conventional and nuclear safety and experience working at all of the Ontario NPPs and with all of the Canadian NPP utilities. I have enjoyed attending many OCNI functions over the years including the more recent virtual sessions and I would be pleased to have the opportunity to directly contribute to OCNI's continued success and to further support the nuclear industry in Canada.
