

Fabricia Pineiro joined Westinghouse Canada as their Director of CANDU Business Development after spending ten years with SNC-Lavalin's nuclear team. Fabricia graduated from the McMaster University Engineering Physics program. During her undergraduate studies, she specialized in nuclear engineering.

Fabricia has experience in the engineering division in the areas of physics, safety, mechanical and project engineering. Fabricia holds a PMP certification, is a member of Women in Nuclear (WiN) and a member of North American Young Generation in Nuclear (NAYGN). She is also the Canadian representative for the NICE Future initiative and the International Youth Nuclear Congress (IYNC).
