

Louie has over 30 years of experience working in the Canadian Nuclear Energy industry. As an engineering professional and having completed Mechanical Engineering from University of Toronto, Louie joined Ontario Power Generation (OPG) supporting the Darlington Nuclear Generating Station initially with the fuel handling team. After completing his Masters in Business Administration (MBA) from University of Toronto, Louie progressed through his professional career and continued to take on a number of leadership roles within OPG both in technical and financial organizations. Louie successfully led the Nuclear Business Transformation team that led to a major reorganization within OPG that resulted in significant Process Improvement and improved organizational efficiencies.

After 22 years with OPG, Louie joined PCL Construction as their Chief Nuclear Officer with a mandate to head up a nuclear division with the objective of developing a PCL presence in the nuclear industry in Ontario and beyond. After successfully implementing all the requisite quality programs, PCL achieved its first contract award one year ahead of the strategic plan. PCL is well poised for supporting the nuclear industry with the implementation of Small Modular Reactors through Canada having already qualified Canada's largest module fabrication facility and field construction team.

Over the past decade, Louie has been increasing his involvement with OCNI by participating at numerous Supplier Days, OCNI sponsored events and collaborating with his peers and industry leaders to share learnings and knowledge.

Outside of his professional life, Louie is a member of the Markham District Energy (MDE) Board of Directors. Louie has contributed to the growth of MDE through the participation as Vice Chair of the main Board, as a member of the Human Resources Sub-Committee and as the Chairman of the Finance Sub-Committee.

Louie is a dynamic, results-driven executive with strong leadership and communication skills and a strong track record in large scale business improvement implementations that improve organizational effectiveness and operational efficiency. Louie looks forward to using his experience and skills to support OCNI and the nuclear industry with its growth activities.
