

Mounia Yelles

Mounia Yelles is Vice President, Markets & Customer Relations at Siemens Energy Canada. Based in Oakville, Ontario, she brings more than 17 years of international experience across the energy industry, with expertise in strategic growth, customer engagement, and business development. In her current role, Mounia leads Siemens Energy Canada's market and customer relations organization, guiding market development and strategic account engagement across the country. She works closely with customers, industry partners, and Siemens Energy's regional and global businesses to advance opportunities that support Canada's evolving energy needs. An electrical engineer by training, Mounia began her career as a wireline field engineer with SLB before moving into sales, commercial operations, strategic growth, and program leadership roles with GE Oil & Gas across the Middle East, North Africa, and Türkiye. She joined Siemens Energy in 2023, initially supporting power systems sales and strengthening customer relationships in Ontario. Mounia is fluent in English, French, and Arabic.

Dear OCNi Members, Canada's nuclear industry is entering an exciting period of growth and opportunity. I am seeking your support to serve on the OCNi Board and help ensure our industry continues to thrive. Throughout my career, I have been passionate about building connections, creating opportunities, and strengthening collaboration across the multiple sectors, including nuclear. I believe my experience in market strategy, stakeholder engagement, and industry partnership development can help advance OCNi's mission and amplify the voice of its members. If elected, I will be a strong advocate for our industry, focused on growth, innovation, collaboration, and the long-term success of Canada's nuclear supply chain. I would be honored to earn your support. P.S. I am fluent in French, which will help broaden our connections.
